WEB DEVELOPER

I am passionate about marrying logic and creativity to invent resourceful solutions to challenging problems. I build fast and responsive platforms to ensure outstanding user experience. A result-driven developer who is committed to my team, I strive to draw out the best in each person and connect people of different cultures.

Skills

HTML, CSS, JavaScript, Node.js, Express, React, React Native, Redux, Python, Django, Git, Debugging, MongoDB, SQL, PostgreSQL, AJAX, Materialized, Bootstrap.

Experience

General Assembly, Washington, D.C.
Web Development Immersive Student, May 2018 – August 2018
- Focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development.
- Built a Trivia Game using HTML, CSS and JavaScript.
- Built a full stack application using Node.js and Express.
- Led a team of 3 in a group project building a full stack application using Node.js, Express, MongoDB, React, Git and Bootstrap under firm time constraints.

Open Arms Child Development Center
Lead Teacher, April 2015 - April 2018
- Documented and measured student progress daily for 15+ students to ensure each individual met developmental goals.
- Adapted curriculum and planned lessons to teach to federal and state standards.
- Collaborated and communicated with 48 students as well as co-teachers, parents and school administration to meet common goals.

Education

General Assembly, Washington, D.C., May 2018 - August 2018
Web Development Immersive Student
